Kan transporten bidrage positivt?

Rethinking transport

1. Make it easy to be a 'mobilitist'
2. Stop waste of transportation
3. Prioritize active transport locally, regionally and nationally
4. Make partnerships between workplaces and authorities on green and healthy mobility
5. Prioritize transport connectivity and infrastructure that supports green commuting
6. Test and lead new innovative solutions for the benefit of a sustainable society

“Vi kommer til at skulle ændre den måde, vi lever på”
